- Lyst** It is an **augmented reality** experience for Lyst brand during London Fashion Week. I completed this project when I worked at M-IS and used **Unity** (C#) to develop it.
- Video:** <https://goo.gl/dzJk8z>
- Atmosphere Browser** A simple **web browser** for Mac users. It aims to help browsing and having the space for other tasks on screen at the same time. I used **JS** and **Electron**.
- Video:** <https://goo.gl/j74xdR>
- Kiosk Lite** It creates kiosk windows for touch screen projects. It has abilities to add whitelist for the current session of browser and solves keyboard problems on touch screens.
- Video:** <https://goo.gl/ZLUMN6>
- Ozan.com** Ozan is a **payment system** like Paypal. I worked as contractor to develop their User Panel and front pages.
- Website:** <https://ozan.com/>
- Royal Air Force NOJ** A touch screen **application** for Royal Navy that I developed at M-IS.
- Video:** <https://goo.gl/sVRDmX>
- Royal Air Force 1440** 1440 is an **iPad game** for Royal Air Force students. I developed it by using JS and PhoneGap at M-IS.
- Video:** <https://goo.gl/6JDcfD>
- McKinsey** A touch screen application for McKinsey Barcelona Mobile Congress that I developed at M-IS.
- Video:** <https://goo.gl/jGwx6j>
- Philips** I developed iPad application. It reads QR codes and connects other screens for the animations for Philips that I worked at M-IS by using JS.
- Video:** <https://goo.gl/w7RJ6g>

Philips **Responsive** touch screen application for Philips that I developed at M-IS.

Video: <https://goo.gl/nNS325>

Admin Panels I **designed** and **developed** admin user interfaces.
Material Design Admin Panel is one of them. I was also **awarded** for this work.
